

Season 4 Episode 3

Breaking Wayon

Annie and Jake are in the woods near the outskirts of the crazy town. They look through remains of the Eden Vern invasion ships. Jake said, "Wayon must really mean something to these people if they would go through all this. If only these people could help us in our fight against this town." Annie finds a computer log in the ship that contains records and diagrams. The diagrams reveal an image of the anatomy of a vernitian. Annie and Jake look at the diagram and Jake said, "So that's what they look like on the inside." Annie said, "Their physiology looks weak and frail. Despite that, they seem to be incredibly strong." Jake points to a highlighted spot on the brain of the vernitian shown in the diagram. Jake said, "What is that?" Annie takes a look at it and she said, "It looks like some kind of artificial thing placed into the brain." Annie looks at where she got the diagram from and it is in a digital folder titled, Wayon. Annie said, "If my speculations are correct, this may be the anatomy of Wayon." Jake said, "I remember hearing that they erased his memory and they did things to him to make him only speak in rhyme of a certain rhythm." Annie said, "Could that possibly be what is causing Wayon to be the way he is? If that is so, then removing it could in theory cause Wayon to revert back to his previous self and then..." Annie gets visions of Wayon being strong and powerful and winning fights. Annie said, "Wayon could become a force to be reckoned with. We know he was a dangerous criminal on Eden Vern. He tried to run a revolution against their king." Jake said, "That's kind of like what we are doing." Annie said, "Exactly. We need to find a way to get this inhibitor out of Wayon so he can be like his past self." Jake said, "How are we going to do that?" Annie said, "I have a plan."

Annie shows Jake some medical equipment. Jake said, "How did you get this?" Annie said, "Some medical practice was closing down and they were throwing out their equipment. I was somewhat interested in this stuff so I thought, why not. I didn't think I would be using it on Wayon though." Jake said, "Here's the other question. Wayon always hangs out around Isaac. If we kidnap Wayon, Isaac would know for sure and he would do, I don't know to us." Annie said, "We will do it at nighttime when they least expect it. I still have my lock breaker from all that time back."

That night, Annie and Jake dress in black and they sneak into the residence where Isaac and Wayon live. Annie and Jake crowd outside the door. Annie uses her

lock breaker to break the lock on the door and they enter. They quietly creep around Isaac and Wayon's bizarre collectables that are lying all over the floor. Jake accidentally steps on one and he hurts his foot. Annie said, "Be quiet." Annie and Jake find Wayon sleeping in Isaac's room upwards. Jake flails his arms in front of Wayon and he does nothing. Jake said, "Wayon seems to be in deep sleep." Annie said, "Good. Let's strike." Annie and Jake take a wooden board with wheels and they pry Wayon on the board. Wayon falls over front and Annie tries to lift Wayon onto the board. Annie's face goes big and sweat pours down her head. Annie said, "A little help please." Jake helps lift Wayon. Jake said, "How much does this guy weigh?" Annie finds an odd-looking large claw lying on the floor. Annie takes it and she uses it to grab a tight grip onto Wayon and have him placed on the wooden board. Annie and Jake slowly pull Wayon through the heap of stuff. Annie and Jake pull hard and they end up dragging Wayon through the stuff and it causes a lot of noise. It even makes an animatronic of a bear go off. The bear's eyes light up and he said, "There's a buck out here without a bullet!" The bear breaks into some dumb song. Jake is looking scared. Annie punches the animatronic in the head and it doesn't stop. Annie said, "What's this thing made of? Where's the off switch on it?" Jake said, "Let's just get out of here." Annie and Jake dash out of the place.

Annie and Jake take the sleeping Wayon to where Annie has the equipment set up. They place Wayon down on the table. Jake said, "How exactly are we going to get the inhibitor out? Surely we are not going to cut his head open." Annie said, "Don't be ridiculous. We are going to take it out the way they remove kidney stones in the 21st century." Annie takes out a small gun and holds it up to Wayon's head. Annie locates the lobes on top of Wayon's head. Annie said, "If I remember correctly, those lobes on Wayon's head above his eyes are his ears. If I can get a perfect shot..." Annie uses the gun and it sends wave beams into Wayon's ears. They cause vibrations throughout his head. They hit the inhibitor and it nudges. Annie turns up the intensity on the gun and it causes the inhibitor to violently jump around. Annie hears a ding from the gun and Annie sees the inhibitor attracted to the gun. Jake said, "I wasn't expecting that." Annie said, "Neither was I. I thought it would destroy the inhibitor. Not bring it to us." Jake said, "At least we have it as a souvenir of the time Wayon was, well, the Wayon we've known."

Wayon begins to wake up. Annie said, "Wayon. Can you hear me?" Wayon said, "Where am I?" Jake said, "That's the first time I heard Wayon say something that was not a rhyme. He doesn't even have the rhythm." Annie said, "I am Annie and this is Jake. We understand you were captured by the King on Eden Vern for crimes against the kingdom. We have rescued you." Wayon said, "I've been rescued? How long was I out for?" Annie said, "I'm not sure exactly but now you are here on earth?" Wayon said, "I am here on earth? That dreadful place? How is this a rescue when I am still in the prison they said they would send me to?" Annie said, "Earth is not as bad as

you think it is. It is actually quite nice of a place if you give it a chance.” Wayon said, “I need to get back to Eden Vern. I need to finish what I started.” Annie said, “How about we make a deal. We on earth are in a similar situation to you. The mayor of this town kidnapped us and a lot of other people and forced us to live in this town against our will. It is not a nice town. We have no freedom. We have no liberty. It is similar to your home of Eden Vern. However, the people that guard the mayor and this town are much weaker than the people on Eden Vern.” Jake said, “You are a god compared to a lot of us.” Annie said, “With your strength, you can take out this mayor easy. Then you can free the town and once we are free, we will help you fight in your revolution.” Wayon said, “Where is this mayor you speak of?”

Annie and Jake take Wayon to city hall. Jake said, “The mayor is sitting on the highest floor right now in the large office that takes up the entire floor. The mayor is slacking off playing on his computer right now. This is your chance to take him over.” Wayon said, “Consider it, done.”

Wayon barges into the front of city hall. The receptionist said, “Can I help you?” Wayon ignores her and he breaks down the door to the elevators. Wayon takes the elevator to the mayor’s office. The mayor is playing some 3D shooting game on his computer. Wayon enters the office. The mayor said, “Hey, aren’t you that Wayon? Where is Isaac? I don’t think I’ve ever seen you two apart or wait... I have that time I poisoned everyone in the town.” Wayon said, “You’re sick. You are just some fool that thinks they can push people around. You just said you even poisoned them once. You are a pathetic fool and a lame excuse for a great leader.” The mayor said, “I never heard you say so much before. I thought you only spoke in rhyme. Who put you up to this? Was it, Annie?” Wayon grabs onto the mayor and he smashes the glass window behind him and he holds the mayor over the city. Wayon said, “You will give up control of this town and you will let me run it instead. Something tells me I would be better at running it than you are.” The mayor looks below and he sweats in fear. The mayor presses a button on his watch. The mayor said, “Ok. You win. I will let you have what you want. Put me back in my office so I can continue that high score game I had on Globatron 3D.” Wayon places the mayor back in his office. Guards with bullet proof vests and assault rifles barge into the office. They aim their weapons at Wayon. The lead guard said, “Put your arms up. You are under arrest.” The mayor said, “You didn’t think I would let you win as easy as that, did you?” Wayon smacks the mayor hard and the mayor falls out the window and he lands on a small pile of dirty old mattresses on the street. Wayon fights against the guards. The guards open fire on Wayon. Wayon punches out one of the guards and he smacks down another one. The remaining guards keep firing on Wayon. Wayon quickly catches all their bullets. Wayon said, “Bullet weapons? Don’t make me laugh.” Wayon throws all the bullets back at the guards and the guards fall in pain. Wayon said, “I rule this town now.”

SWAT Team members barricade the town with their trucks and weapons. A giant screen on a building turns on and Wayon is on the screen. Wayon said, "Greetings people of this doomed town. I am your new ruler now. I am, Wayon. I shall now rule this town and make it far more prosperous than it was under that old fool that used to run this town. To begin, I am giving you all jobs. We are going to work on my invasion force to invade Eden Vern. This is the start of a new empire and it begins here. This is a proud moment in all our histories. I have already forced the remaining town guards that value their lives to work directly for me. They will guide you to your jobs."

Wayon visits Annie and Jake at the residence they stay at. Wayon said, "Annie and Jake. I am glad to see the two of you. I have a lot to thank you for." Jake said, "We must be free to go now." Wayon said, "Not quite. You see, you are stuck in this town because you've been rejected from the outside world. I rule this town now. We will all work on the construction of my new invasion force." Annie said, "We did say we would help you win your revolution but this is not what I had in mind. I have a lab filled with gadgets and equipment. I have connections in the world of science and technology. We even have some samples of Eden Vernian technology. We can all live in peace." Wayon said, "Since when was this all about peace?" Annie said, "Isn't that what you wanted to bring to Eden Vern?" Wayon laughs and he said, "I didn't want to bring peace to Eden Vern. I did what I did because I wanted to rule over it with an iron fist. I want to overthrow the king and his dumb monarchy that has plagued that planet since its known conception." Annie said, "You really are a monster." Jake spots the inhibitor. Jake jumps on Wayon and tries to pin him down. Jake said, "Get the..." Wayon grabs onto Jake's arm and flips him over. Wayon said, "You'll have to try harder than that to beat me. Even your best guards couldn't stop me."

Annie and Jake are being herded like sheep among other town inhabitants to the center of the town which is now a giant construction site for an invasion force. Annie said, "We created a monster. This is our fault." Jake said, "No. It is your fault. You are the one that came up with the idea of altering Wayon and you are the one that took out his inhibitor." Annie said, "You're right. We left the inhibitor at my workstation. We need to get back to the workstation and take back the inhibitor and put it back in Wayon." Jake said, "How are we going to do that? Wayon is overpowered." Annie said, "Surely he must have a weakness of some kind." Isaac is brought into the work section. Isaac begins hammering parts. Annie said, "Isaac. You know more about Wayon than any of us do. Maybe you know his weaknesses." Isaac said, "Eh, I've known Wayon for years now. He doesn't have any known weaknesses." Annie said, "Surely there must be something he is not capable of." Isaac said, "I always thought he was not capable of saying things that were not in rhyme or things that made any sense. I was just proven wrong. Surely Wayon is the greatest being in the universe."

Admiral Lightning pulls a cart filled with materials for the invasion force. Admiral Lightning pulls the cart up to Annie and Jake. Annie said, "Surely you must have some kind of plan to take down Wayon." Admiral Lightning said, "Inside workers are the real masters against the dictator of the domain." Annie said, "How so?" Admiral Lightning said, "I was drafted here early. I followed the blueprints given and I managed to construct that large post in the middle which holds the fabric of this heavily guarded project. As you can see. The entire vicinity of this worksite is guarded by guards. Watch this." Admiral Lightning takes out one of his diamond gems and he throws it at the post and the post nudges over and it causes the entire construction site to fall apart. It creates a large dust cloud. Admiral Lightning said, "Now's our chance to escape." Admiral Lightning, Annie, and Jake, rush out of the construction site. The debris forms a large cloud with low visibility. Annie and Jake cough and Annie said, "How are we going to find our home?" Admiral Lightning said, "I can do that." Admiral Lightning looks through one of his gems and it gives him crystal clear vision. Admiral Lightning grabs Annie and Jake and he takes them to their residence.

Annie and Jake go to the workshop and they find the inhibitor. Annie said, "We got the inhibitor. Now we need to find Wayon." Guards barge into Annie and Jake's place. Admiral Lightning said, "Let me deal with these guys. You go off now." Admiral Lightning throws his gem around at the guards and he smacks them down. Annie and Jake go on their balcony and they climb down the other balconies on the building.

Annie and Jake go to the city hall and they see the place is heavily guarded. Jake said, "How are we going to get through these guards? We don't have Admiral Lightning with us and we don't have any good weapons with us either." Annie looks around and she sees the mayor leaving the building wearing a worker's suit carrying barrels of something for the invasion force. Jake said, "We team up with the mayor?" Annie said, "Of course not." Annie grabs onto Jake's arm and they run into the door that was opened by the mayor and they get into a storage section in city hall. Jake said, "I didn't know city hall had a storage section like this." Annie said, "City Hall has everything. It even has guard uniforms." Annie points to some guard uniforms.

Annie and Jake put on the uniforms and they arm themselves with assault rifles. Annie and Jake go to the mayor's office where Wayon is. Wayon said, "What is it?" Annie said, "There has been a disturbance at the construction site." Wayon said, "I already know about it." Annie said, "What you don't know is who the culprit was." Wayon said, "I know who it is. It is that idiot named Isaac that hangs around you. I read his file and I read all your files. You really have an impressive record, Annie." Jake said, "Who's Annie?" Wayon said, "You can cut the crap. I know it is just you Annie and Jake in disguise."

Wayon said, "I really must admire you for going through all this trouble just so you can restore me to that foolish idiot version I was before. Face it. I am stronger and smarter than both of you combined." Jake said, "We will see about that!" Jake open fires on Wayon and Jake keeps missing. Jake's ammo cartridge runs out of ammo. Wayon laughs and he said, "Do you think I would let guards carry something that can be used to kill me?" The office begins to rumble. Admiral Lightning is outside flying in his diamond ship. Wayon turns around and he said, "Admiral Lightning in a diamond ship? I guess this makes sense." Admiral Lightning open fires on Wayon firing all kinds of diamond weapons. The office gets destroyed forming into a slide and they all slide into the streets. Admiral Lightning hovers his diamond over Wayon, Annie, and Jake. Wayon reaches under his shirt and he pulls out an anti-aircraft gun and he fires it at Admiral Lightning's ship. Admiral Lightning's ship crashes into the remains of city hall and Admiral Lightning jumps out. Admiral Lightning jumps and aims for Wayon. Admiral Lightning throws his diamond gem at Wayon. Wayon grabs onto the diamond gem and he crushes it into dust in his hand. Wayon said, "You see. I am stronger than diamond." Admiral Lightning said, "I guess we do this the old-fashioned way." Admiral Lightning goes to fist fight with Wayon. A fight cloud is formed and Wayon spins Admiral Lightning and he smashes Admiral Lightning's head into the ground.

Wayon said, "Even the mighty fall at the sight of me." Jake said, "I will beat you down. I will get you too..." Wayon said, "You have nothing. The town is mine. The town is in disarray. The outside world hates you. You are weak. All you have is that smart girl of yours and even she is too weak to beat me. This is where you admit you lost. What is this?" Wayon reaches into Annie's pocket and he pulls out the inhibitor. Wayon said, "This looks familiar. This must have been that inhibitor I've been hearing about. I guess I should destroy this before it does anything..." An animatronic bear shows up and he sings a stupid song. Wayon looks at the bear and he said, "What is this? Where did this come from?" The bear walks up to Wayon and begins to beat up Wayon. Wayon smacks the bear and it does nothing. Wayon said, "What is this bear made of?" Isaac's voice said, "The bear is made of stuff no one cares about." Isaac takes off the bear's head revealing it is him underneath. Isaac uses the bear's ridiculous strength and he grabs the inhibitor out of Wayon's hand and he shoves it into Wayon's lobe. Isaac sticks his hands deep in there to get it in there. Wayon pushes Isaac back.

Wayon said, "This town was a domain and ruins are what will remain." Annie and Jake smile and Jake said, "Our Wayon is back." Isaac brushes himself off and he said, "Don't everybody thank me at once." News crews from DDD News show up. George Ferrier said, "Hello I am George Ferrier of DDD News. There was a major disturbance in a local reservation suburb in San Francisco. It seems there was a brief regime change but it looks like everything has been set back in order. The main hero of this is the local boy, Isaac." Isaac is with George Ferrier. George said, "So, Isaac. We

at DDD News believe you deserve a reward for giving us such a great news story and for being a hero. We will give you a large prize of a dinner at a luxury buffet.” Isaac said, “Thanks, George. We are surely going to love this.”

Annie and Jake are standing on the sidelines watching the news report getting filmed. Jake said, “I am not sure if Isaac deserves all the credit or not. You are the one that started the war and Isaac is the one that ended it.” Annie said, “This may be the only time Isaac winning is justified.” Jake said, “Our plans failed. Admiral Lightning got beaten down. Isaac actually restored Wayon because of that bear he collected.” Annie and Jake give each other puzzling looks.
